Make it Simple. Make it Smart.

What is CIVIL EASY?

CivilEasy is an Accounting and Management app especially for Civil Engineers, Contractors, and Builders. Its simple user interface allows you to create Client Invoices, Track Expenses & Receipts, Manage Inventory, Daily Labour Attendance Reports, View Daily Transaction Book, View & Send various Financial Reports and much more.

CivilEasy is designed to maintain site engineers daily logs reports, project creation, payment schedule and timesheets between company and their construction sites.

Don't waste your time on paperwork and join the thousands of construction professionals who are using this #1 App (CivilEasy). It provides 100% satisfaction to your company's needs.

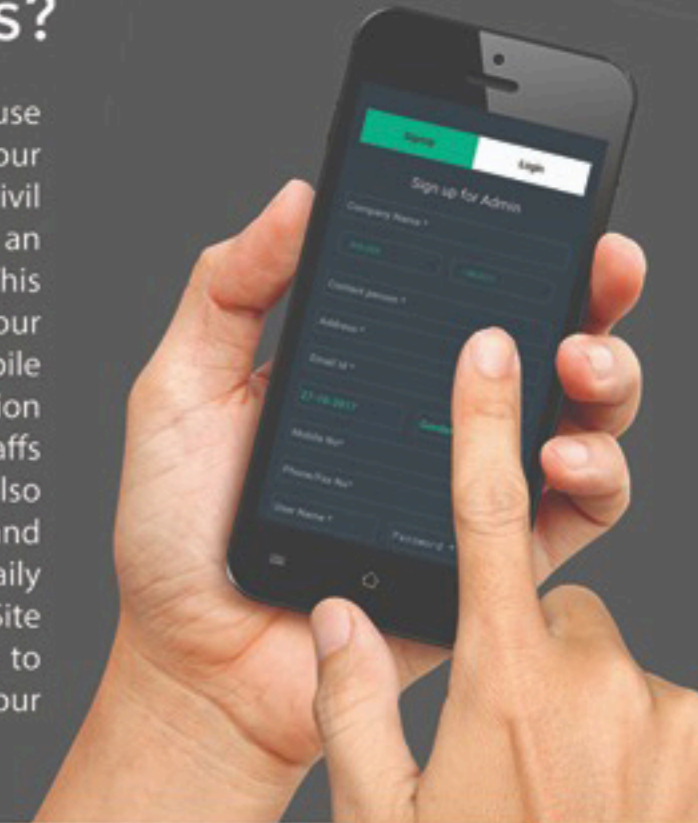

This CivilEasy App will help to manage daily reports in real time, specially designed to ensure the accurate and regular flow of information, such as daily attendance reports of labour, materials, work completion and site petty cash book entries. We have specially designed web application for office use to monitor all projects and this mobile application for site use.

What are its FEATURES?

- 1 Real time data gathering from field to office.
- 2 Smart and efficient interaction between employees and management.
- 3 Create multiple projects and can assign multiple engineers to particular projects.
- 4 Easily Maintain Daily Work Completion and Attendance Reports.
- 5 Users can manage account with login information provided by construction management.
- 6 Management can view the following reports at any time.
 - Each and every Project Expenses summary report.
 - Daily Cash Flows and Cash in Hand (Office and Projects).
 - Track Expenses & Receipt
 - Manage Inventory
 - View Daily Transaction Book
 - View & Send various Financial Reports.
- 7 All Data's are stored in cloud (Secure, Global & High Performance)

How does it helps?

Civil Easy is a simple and easy to use App which helps to record your expenses during any type of civil construction. Most people maintain an excel sheet for entering expenses. This app can be used to record your expenses instantly from your mobile phone while you are at the construction site. You can create a login to your staffs (site engineers & supervisors) and also allocate rights to access projects and modules. They can input their daily records (Attendance, Purchase, Site petty cash entries). You will be able to view all the site information within your mobile.

Modules available

- Admin
- Client Management
- Supplier Management
- Sub-Contractor Management
- Material Inventory Management
- Labour Management
- Accounts (GST incorporated)
- Staff Punch In & Out Attendance (Location Tracker)
